Hello Giora,
Thank you for reaching out.
As PayPal doesn't work in my country, I have to use a proxy man in Europe.
You may send 30 Euro to PayPal account alisaberd@gmail.com
As a comment please add P.Iva 02110830383, nothing more.
You provide me with a transfer confirmation screenshot, I provide you with the license.

As another workaround you can try to pay me with the MasterCard bank card following by this link <https://simshaker.com/andre/payments.htm>
No screenshot needed in this case.

Would that be fine with you?

Kind regards,
Andre

For simplicity sake I consider them equal. If you select EUR on the website you can see that.

Kind regards,
Andre
